

KAT-A 5310

Product characteristics and benefits

- For easy operation of buried valves
- Captive cover integrated into surface box

Materials

- Body: Cast iron EN-JL 1040 (GG-25)
- Stay: Stainless steel 1.4021
- Bolts: Stainless steel 1.4021

Corrosion protection

- Inside and outside bitumen varnish coating

Versions

- For underground hydrants DN 80 acc. to DIN 4055
- For underground hydrants DN 100
- For water shut-off valve acc. to DIN 4056
- For water tapping bridges acc. to DIN 4057

Field of Application

- Underground installation

Tests and approvals

- DVGW tested and registered

Note

For proper installation and safe operation please follow the installation and operation instructions:

“Installation and Operating Instructions for Valves”
